

Best-in-Class Network Infrastructure Solutions

Hello Everyone,

First and Foremost I want to thank the fans, coaches, and everyone else who supported the team and me at Arizona State University. Going to college and obtaining my degree has been a dream of mine forever, with your support and wrestling I was able to accomplish my dream. Your support made my time at Arizona State some of the best years in my short lifetime.

I just wanted to give everyone an update on my new life after wrestling. Starting out in the real world had been exciting just like going out on the mat for the first time at Nationals. I wanted to stay in the valley to give back to the community that has given so much to me. I just made my first donation to the wrestling endowment and I look forward to helping more as I establish myself in the community. I challenge all other wrestling alumni to do the same.

More on what I am doing now. I have been fortunate to get hired by a local company called Enterprise Networks Solutions. (www.ens-az.com). ENS is a company that is in the network infrastructure business that provides voice and data solutions for Arizona business and schools. ENS has been in business since 2000 providing voice and data solutions. I will be focused on voice specialist for ENS. If anyone is looking to upgrade or acquire a new phone system we offer a best in class IP Telephony phone solution for offices of all sizes, and multiple locations from Shoretel.

I look forward to catching up with everyone at the next advisory meeting and helping assure that the next generations of ASU Wrestlers have the same opportunities that I have had.

Thank you
